

FLORIDA DEPARTMENT *of* STATE

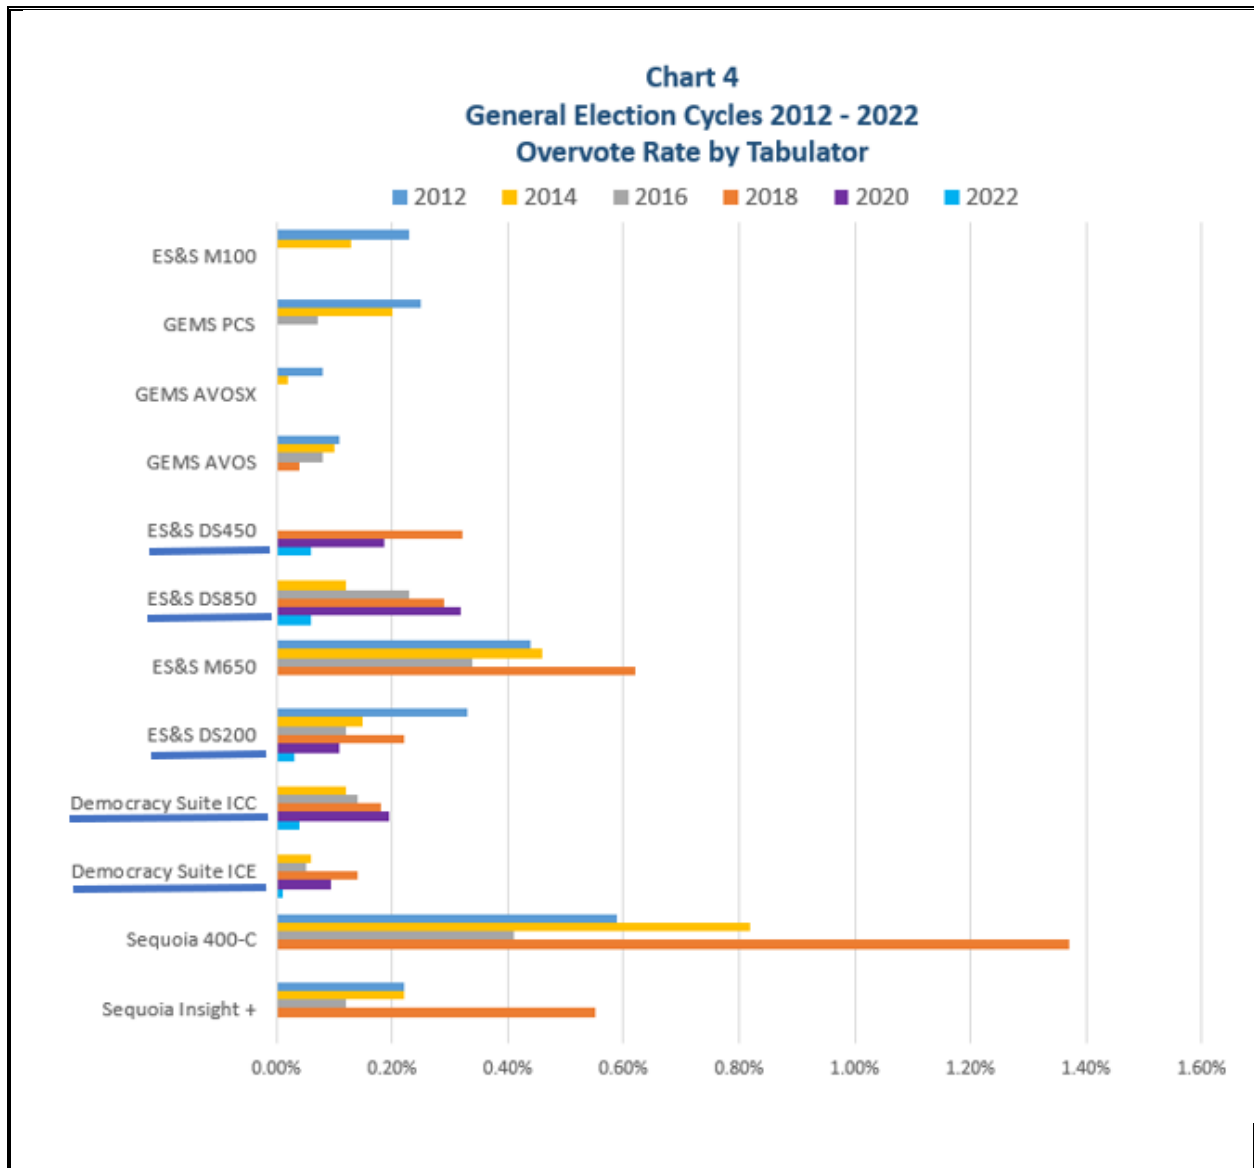

Report by the Department of State On Overvotes and Undervotes in the Gubernatorial Race, and Post-Election Voting System Audits for the 2022 General Election

Prepared by the Florida Department of State
pursuant to Sections 101.591, and 101.595, Florida Statutes

Addendum: March 3, 2023

The following corrections are made to Part I of the *Report by the Department of State On Overvotes and Undervotes in the Gubernatorial Race, and Post-Election Voting System Audits for the 2022 General Election*:

- **Chart 4** as it appeared on page 9 in the original report is replaced with the corrected chart below. Since the report is based on an analysis of the raw data submitted by the counties, a re-review shows the narrative preceding the chart on page 8, and the findings and conclusions remain unchanged by the correction and still apply.

- **Chart 5** as it appeared on page 10 in the original report is replaced with the corrected chart below. The corrected chart shows a slightly lower undervote rate for 2018 than contained in the original chart. However, since the report is based on an analysis of the raw data submitted by the counties, a re-review shows that the narrative preceding Chart 5, and the findings and conclusions remain unchanged by the correction and still apply.
