# ST. JOHNS COUNTY SEED LIBRARY

## A COMMUNITY PARTNERSHIP

---

- The Seed Library is a collection of open-pollinated and heirloom seeds that you can borrow to plant and grow at home. By saving seeds as a community we help create local seed stocks that are better acclimated to our unique climate and which support an abundant and genetically diverse landscape.
- We support gardeners from beginner to expert, and help you learn how to grow, harvest, and save seeds. You may find our resource binder (located next to the library) to be a great first stop.
- Our seed collection depends on donations and seasonality. You'll see different seeds available at different times, so check in frequently to see what's available.
