198	What percentage of Black/African-Americans or Indigenous Blacks with Native American blood will be involved in the creation of this museum? Will descendants of former slaves be permitted to share their families history? Will this museum tell the truth and nothing but the truth, without bias and omissions of what really happened here in FL? Why now, with a Governor who seems to really have an issue with Black History? What is the Governor's motives? What is the Governor's roots? Would he be open to tracing his family's roots? There's probably some Black somewhere along the way because as you know, we're actually all related. Anyway, will this museum be something that Black people will honestly be proud of because it tells the truth finally about Florida's Black History. We all know that Columbus wasn't the first to discover FL so how far back are you willing to go. I know I'm tired of the lies personally. What about the Black Seminoles and the Indigenous people that were already here? What about Rolleston in East Palatka? Newton in Palatka? You do know that Ms. Mary McLeod Bethune worked here and started her school in Palatka, but was ran out of town. Do you plan to include Historic Central Academy the First Accredited Black high school in the state of Florida? I believe it's also the First Accredited public school in the state of Florida. There's so much to share. Hopefully, it will be a good and honest display of Florida's true Black History.	2/27/2024 8:10 PM

The Tampa Bay Rays have committed to providing \$10Million in support and space for a 50,000 square foot facility in the proposed new development for its new baseball facility. This appears to be a misguided, ill-conceived, redundant idea. As the owner of one of the largest privately held African American history art and memorabilia collections in the US, the Montague Collection, I oppose this initiative. And if you want to do a historical thing do it about the Native American indians. Then incorporate the time lines of the blacks, Spaniards, Minorcans etc. You soley creating a museum catering to a specific group creates division and incites racism. America is to be a melting pot. 1534	Comment more than question...please consider engaging Jane Landers, PhD, ( well-respected historian and expert in this area..faculty at Vanderbilt) author of Black Society in Spanish Florida ...she accurately describes slavery under early Spanish rule ...which occurred simultaneous with, but apart from the lives of the freed people in Ft Mose... Please accurately tell the story of the enslaved African people ( from over 40 African nations) who were registered into Spanish Florida by Jesse Fish as " owner" ( names and ages are documented in the Cuban Book of Indultos -youngest child was Melchora age 5 years) ...appendix9, in Landers book Black Society in Spanish Florida . She describes the process of registration which included assignment of new Spanish name, (erasure of previous name) , physical exam, monetary valuation in pieza, collection of tax, and branding each person over left shoulder - including the youngest 5yo child) ,Physical exam documented scarring and previous branding and abuse in many of the children. Majority of Enslaved African people registered by Jesse Fish were children ...he owned the El Vergel Plantation on Fish Island ( now preserved in St Augustine )....it was the largest international commercial orange grove in the mid 1700s and this geographical site represents the intersection of the very origins of Florida's orange history, and the trans-Atlantic Slave trade in Spanish Florida. . Fish had over 3000 trees and census records indicate enslaved people lived and worked at El Vergel plantation . They are likely still buried there in unmarked graves , since he was Protestant, and census record indicates some " slaves" were not baptized. Please include the contributions and the sacrifices made by the enslaved African people in Florida's orange industry history ..starting with Fish Island in St Augustine . I worked to save it and have tried to encourage the City to truthfully tell their story . In St Augustine the narrative seems to focus mostly on Ft Mose ( British bad,	1/14/2024 9:02 PM

Spanish good) ...there is much more to add to that story and I'd like to see the enslaved people owned by Fish to have their story truthfully told. There are many generations of Fish's mixed race descendants in st augustine records. African American men in Florida were still primarily engaged in fruit picking by the 1950s in Florida as they had few opportunities for other types of work. In my view some of the very first strikes for civil rights and the breaking of economic racial barriers in Florida were accomplished by a small group of unsung heroes ... African American fruit pickers who tried their hand as artists..painting seascapes ( they are known today as the highwaymen) ...who because of their paintings were able to reach across racial barriers breaking them down one painting at a time ...by selling them from the back of their cars to white motel owners to hang in old Florida motels . As recently as 8 years ago the Harne Museum in Gainesville was not willing to show their work because they had not graduated from art schools or considered " professional " artists ....I believe this has changed now, but my point is that they made significant contributions to breaking down economically driven racial barriers in Florida , though they are not credited for doing so . It's my hope that your group will look at ALL aspects of Black history in early Spanish Florida and follow the orange history , their contributions, and their sacrifices.

It's important that they understand how it shapes every aspect of life for some groups. Some people might even need convincing that systemic inequality even exists - getting through that lack of awareness would be a major contribution.	1/12/2024 10:00 AM

In Baltimore, where I am from, the city built a fancy museum in the heart of the tourist district, the Inner Harbor, it has failed spectacularly, with very few paying patrons, it is mainly used for school groups and is supported by taxpayers. So they got rid of a historical confederate memorial honoring actual town's people who died in the Civil War, but want to build a costly black history museum. So is the city interested	1/12/2024 8:57 AM

1971	Why develop a special Museum of Black History? I would much rather the history of black Floridians be integrated with ALL museums in Florida that have a black story to tell (which is just about every single one of them). Having them separate is not equal and continues the ignorance of the reality of our history--black people were present, influenced by, supported, experienced, etc the almost the entire history of Florida in one way or another. Continuing to not integrate the real story in our existing museums and instead having a separate facility is a step backward, in my view.	12/28/2023 1:21 PM
