44	While I am enthused about and supportive of the general idea of a Florida Black History museum, I am a victim of political violence, stalking, invasion of privacy, and extortion, and I have reason to believe that this museum and the Individual Freedom Act are products of that malicious, harmful, and/or exploitative activity targeting me. To the extent that my above-suspicions are correct, I insist that those responsible immediately cease and desist from all such activity targeting me, provide me with an accounting regarding all such activity, etc. All rights, claims, etc. reserved. I have not made any waiver, and no aspect of my participation in this survey should be deemed as such. While I am obviously submitting my comments herein voluntarily and willingly, I am submitting my comments in multiple capacities (e.g. as a potential victim and/or supporter) due to the circumstances and my suspicions; and, therefore, make no waiver, release, etc. nor should there ever be any interpretation to the contrary, and I reserve any and all rights, claims, etc. with respect to any such comments, suggestions, etc., including without limitation any ownership, attribution rights, etc. More specifically, but not exclusively, many of my comments/suggestions are from my own life experiences and personal perspectives, and I vehemently insist on preservation of all value and ownership in such suggestions/comments, which are not being provided herein as any grant, transfer, contribution, etc. (i.e. I'd expect serious terms discussions directly, expressly, and in advance that include my full retention/control of attribution/ownership/control and even commissions/compensation/payment in some, if not many or all instances). I have always and continue to take extreme issue with any person/organization, etc. stalking, extorting/exploiting me, infringing upon any aspect of my life and/or rights, etc. [REDACTED] [REDACTED] Subject to the foregoing, my thoughts on	2/29/2024 4:31 PM

1552	Ideally, some sort of courses/classes to help with financial literacy or something along those lines to help local disenfranchised Floridians, which are disproportionately POC, would be good to see. The whole museum should also be accessible to disabled visitors, although I believe that's a requirement. The Amp has ASL interpreters for concerts, so that would also be good to see for any concerts/events here. Since this is a project for West Augustine improvement, it should include an affordable/sliding scale program for children from working class families in this neighborhood like a day camp, day care, or after school program. Basically, I believe this should be an interactive museum that not only archives and exhibits history but is also active in forging an inclusive and optimistic future for all Floridians.	1/19/2024 1:48 PM

2019	I think genealogy resources is a wonderful idea also I love to read about individual people's stories. Maybe just life stories of men and women who made contributions to their community. "Carl here started a school and fought in this war and married and had 3 children one of whom grew up to be a judge" like maybe with a picture and a nice lengthy blurb and a whole wall of them. I'd come back to see which ones I hadn't read yet. People could submit their own ancestors and photographs for inclusion. 2065	This might be a long shot, but how about education/conversation between whites and blacks? I'm white and there is so much I don't know and understand. I am lucky to have a close black friend who has taught me a TON in just a few conversations. Those conversations are very vulnerable, yet non-judgemental and have opened my eyes immensely. I hate to say, but we as whites need those conversations to help us understand. As my friend says, blacks need whites to educate other whites in the community to help get that understanding out there. So maybe events to help us understand and teach us the importance of spreading what we learn?	1/11/2024 11:40 AM
